

S.801 double feeding .

Machine for the application in automatic of the of metal stampings in two pcs parts as : pression buttons, jeans buttons, ecc. The machine makes at the same time the application of both parts.

MODELS

Electrical with -INVERTER: tension 220 V singlephase
cod. 80801989I

The unity is provided with an electronic program for the complete management of the application cycle ; (starting signals, cycle stop, antirepetition of the application, security device, ecc. are completely controlled by a microprocessor.) A lighting display with counterpiece function allows to visualise the possible anomalies that the microprocessor could find.

A safety device with mobile screen guarantees the operator incolumity protecting the application zone.

ACCESSORIES

Support plate
Spot light point.

Cod.80240160
Cod.80165U00V

CHARACTERISTICS		MOTOR
Theor speed rate	c/1'	180
Working clearance	mm	25
Depht	mm	85
Working plane h	mm	950
Overall dimension	mm	700x700x1500
Weight	Kp	110
Motor rating	Kw	0.37 Threephase
Tension electical implantation with INVERTER		220 V. singlephase
